

Church Directory Form

Important
Notes
Please Read ↓

To be included in the new directory **each person** must complete, sign and date this form.

Please print your details clearly to ensure the information is correctly entered.

The Small Print (Data Protection)

The church directory is a database of every person who has requested their details to be included in the Parish's directory to support communication between members of the Parish. The information has been supplied on the understanding that it is held securely and will not be published onto the internet or intranet. It will only be made available in printed form to people who are also in the directory. It will not be supplied to third parties.

You may request to see a copy of your data held on the database, request updates, or ask for your information to be removed by contacting reception on admin@stlukescranham.org. The final removal of records will only occur after three months once the cycle of database back-ups has over-written earlier back-ups.

**Parish of Cranham St.Luke's (Church of England)
201 Front Lane, Cranham, Essex. RM14 1LD**
